

**SGD-PVM20
Public View Monitor**

20.1" LCD monitor with integrated High Resolution Color Camera and Motion Detector.

The SGD-PVM20 is a 20.1" LCD monitor with an integrated 470 line resolution color camera. This system is designed as a public view monitor for use in an environment where the highest quality appearance is most important. The monitor can display the video continuously or operate in motion detection mode. In the absence of motion the monitor will display a customer message or switch to a black screen.

There is a constant composite output to allow the video to be recorded at another location. The unit ships with a remote control for programming all functions. The case is polished aluminum and designed to be installed with standard VESA type mounts.

MODEL SGD-PVM20
